About me

By completing a Software Engineer Diploma, I gained a huge set of technologies such as Python, Django, JavaScript, and many others listed below. Currently doing an internship where I have the opportunity to work in a team and learn from others, I'm looking for the next challenge, to enter a new career with like-minded people aligned toward a common goal, driven by the desire to contribute towards something with purpose.

Technical Skills

Languages: Python / JavaScript / HTML / CSS

Frameworks: Django / Flask / jQuery / Bootstrap / Materialize

Version Control: Git / GitHub

Databases: PostgreSQL / MySQL / MongoDB

Soft Skills

Effective communicator that works well in a team.

Positive can do attitude.

Always willing to learn and improve.

Excellent problem-solving skills.
